

Self-Propelled Aerial Work Platform

- A compact machine with low overall weight.

Genie Runabout™

- The Runabout features Genie's **patented mast system** with high strength interlocking aluminum mast sections and heavy duty lifting chains.
- Narrow 29½ in (75 cm) width and 53 in (1.35 m) length **allow unit to fit in most passenger elevators.**
- Low 19 in (48 cm) entry height allows operators to enter the platform easily. **Unit can be driven through doorways with operator on board.**
- Optional platform extension deck provides 20 in (51 cm) of horizontal outreach.
- Standard non-marking tires and low unit weight **allow use on sensitive flooring.**

- Standard dual wheel spring-applied, hydraulically released braking system.
- **All models are driveable when fully elevated.** GR-8 and GR-12 models can be driven when fully elevated with the optional platform extension deck deployed. GR-15 can be driven when fully elevated with the optional extension deck retracted.

Standard Features

- 500 lb (227 kg) lift capacity on GR-8, GR-12; 350 lb (159 kg) lift capacity on GR-15
- 24V DC electric motor provides clean power for indoor use
- High battery amp hour rating provides prolonged usage between charges
- 25 amp automatic charger for easy overnight recharging
- Proportional drive controls
- 30% gradeability
- Standard platform with basic sliding midrail
- Fixed pothole protection
- Forklift pockets and tie-down points
- Non-marking solid rubber tires
- Descent and tilt alarms
- Workstation tray

Options and Accessories

- Platform extension deck with gated-entry platform
- Fluorescent tube caddy
- 1,000 watt inverter
- Mast guard (in lieu of workstation tray)

Standards Compliance

- ANSI/SIA A92.6
- CE compliance option
- AS 1418.10
- CSA - Call factory for details
