nifty 210SD

The Nifty 210SD is the ultimate combination of our trailer mounted and self propelled product ranges. With full independent suspension and the option of 4 wheel drive, the 210SD can cope with a wide range of working environments and still offers the same impressive reach as the Height Rider 21. Low weight design makes it economical and quick to transport and the 4 wheel steer option gives the operator enormous flexibility to manoeuvre once on site. Excellent gradeability coupled with a good travel speed allow the 210SD to be positioned and set up quickly, allowing the operator to spend more of their time working.

SAFETY FEATURES

- Pressure sensitive outriggers
- Audible & visual alarms
- Dual controls (platform & base)
- Manual descent with hand-pump
- Lock valves on all hydraulic cylinders
- CE Mark

The extra manoeuvrability available from the 4 wheel steer option coupled with the special "Turf Tyres" make the 210SD ideal for working on sensitive surfaces such as grass.
