

RUTHMANN
HIGHquality

Keeping the overview with the RUTHMANNSTEIGER®TK 145.

Maintenance and cleaning of street lamps belong to the basic area of work of communities. For that the compact **RUTHMANNSTEIGER®TK 145** is a perfectly suitable model: It easily copes with demanding jobs in narrow streets and hardly accessible sites. The flexible hydraulic aerial platform (delivery van) reaches a working

height of up to 14,90 m. It is quickly put into position and safe. The lateral outreach of the STEIGER® is up to 9,00 m when mounted on delivery van and even 9,90 m when mounted on carrier chassis. With ranges of rotation of 2 x 225° its high mobility is granted.

The cage carrying capacity of 200 kg of the steel tube working cage is designed generously. **RUTHMANN** offers a polyester working cage as optional extra for jobs at electrical lines/installations.

TK 145 on delivery van.

The reserve in weight of up to 1.800 kg makes this STEIGER® outstandingly attractive. The generous storage space offers a lot of place for material and equipment.

TK 145 on carrier chassis.

The short wheel base from 3,00 m makes it to the compact one of its class. **RUTHMANN** offers a storage compartment, which provides additional storage space.

RUTHMANNSTEIGER®
